eMARKET

- An online market place to showcase your products to businesses or consumers
- Inquiries and Orders, or full eCommerce

eLEARNING MANAGER

- Interactive progress and performance tracking for students and educators

SOP

- Facilitates the dissemination and consumption of company policy, procedures and regulatory information.
- Education, training and Compliance management tool through the use of videos, tests and monitoring

GEO REPORT

- Innovative use of location data to report and drill down to the detail
- View information and reports by place, department, type, demographic or individual item. All at your fingertips.'

EXPRESS

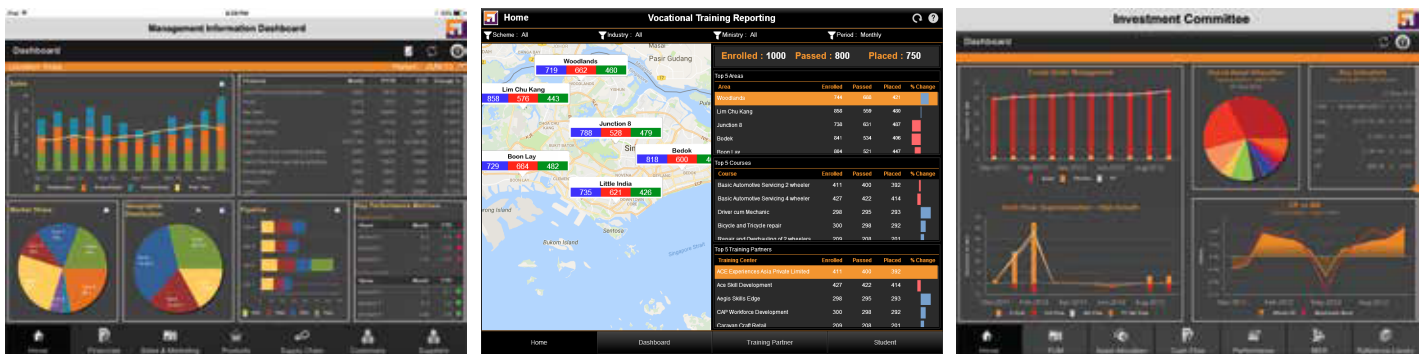

- Locate, select, book and no more queuing
- Enables users to find you and book your services, manages queues, streamlines customer throughput, facilitates push marketing and ultimately optimises company revenue.

CAP & SEND

- Mark it, snap it, doc it and send it.
- GPS-based data capture solution
- Interactive creation and publishing of any subject matter to you and your clients

DYVIEW

- Reporting made easy
- A dynamic and interactive dashboard reporting solution able to be customised in your hands.
- Create and share dashboards with your colleagues and clients
- Pulling data from multiple sources, tailor reports to suit your audience
- Data linked to source does away with the old static reports and allows the user to summarise, drilldown or view information at the touch of a hand or swipe of a finger
- Available on IOS, Android and Windows mobile platforms

With smartphones and tablets replacing PC functions no-one can survive without having their business accessible through mobile platforms. Mobile apps have become an essential marketing tool.

We can help you:

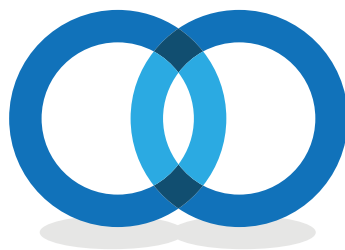

- Showcase your products or services
- Push promotions to customers
- Increase business traffic
- Animate & educate
- Generate sales leads
- Increase your revenue
- Analyse with in-depth reporting
- Comply with business & industry standards
